

Additional Fight for Sight Terms and Conditions for Fight for Sight/MRC Clinical Research Training Fellowships

By accepting the Fight for Sight/MRC Clinical Research Training Fellowship (CRTF) you agree that the Research Organisation will provide a written progress report to Fight for Sight within three months of the first and second anniversaries of the commencement of the award and again within six months of the conclusion of the award. A report will be required on each anniversary of the completion of the CRTF. Reports will be on a standard pro-forma that will be sent to the CRTF holder.

Please ensure that Fight for Sight's support is suitably acknowledged on all publications and posters resulting from the work. A copy of each publication must be sent to Fight for Sight as soon as practicable. Please also ensure that you take every opportunity to promote Fight for Sight whether on television, radio, internet or in any other written media. By accepting the CRTF you confirm that you will ensure that Fight for Sight leaflets that we will provide to you are displayed in a prominent position in the relevant research institution or hospital department and in any other appropriate location.

The project may be "adopted" by a local Fight for Sight fundraising group and we may ask for your help in talking to groups to support Fight for Sight fundraising. Fight for Sight staff will also be in touch to discuss the project and involve you in publicity about the CRTF. By accepting the CRTF you also agree to help with *ad hoc* queries relating to the award to help Fight for Sight in its fundraising efforts.
